

## **Santa Barbara Metropolitan Transit District**

### **Addendum & Clarifications #3**

**December 16, 2005**

#### **Request for Proposals for 22' Low-Floor Battery-Electric Buses**

This addendum is hereby incorporated within and considered a part of MTD *Request for Proposals for 22' Low-Floor Battery-Electric Buses*. Appropriate contract documents shall be modified to reflect this addendum at the time of contract award. Additionally, "Requests for Pre-Offer Change or Approved Equal" forms were submitted by one bidder. MTD's responses are attached and considered a part of this "Addendum & Clarification".

Pursuant to input received at the pre-bid conference, approved equal requests, and other determinations made subsequent to the above referenced RFP release, the following amendments to the RFP have been approved by MTD:

#### **Change:**

1. The proposal due date has been changed to December 21, 2005 at 5:00 P.M.

#### **Clarification:**

1. Assuming MTD issues a notice to proceed for the shuttle style buses would MTD consider taking delivery anytime during the 12 month period?

#### **MTD Response:**

MTD will issue a notice to proceed for one (1) transit-style bus upon contract execution. A notice to proceed will not be issued for the remaining twelve (12) buses until the first bus is accepted by MTD. Assuming a notice to proceed is issued for the remaining buses MTD is willing to take delivery of the three (3) shuttle style buses **within** the twelve (12) month period.
